TENNESSEE BULLETIN NO. 210-05-1

SUBJECT: ENG – ENGINEERING ASSISTANCE AREAS

Purpose. To transmit guidance for engineering assistance.

Expiration Date. September 30, 2005.

The attached map identifies new engineering technical assistance areas and the responsible Area Engineer for those areas effective January 3, 2005. All Conservation Technical Assistance (CTA) and Environmental Quality Incentives Program (EQIP) design approvals and any other related engineering requests/questions are to be directed to the Area Engineer identified on the attached map. Any outstanding work may be completed by the engineer currently assigned to the project.

In addition, any assistance needed from a state office technical specialist such as Terry Horne will be coordinated through the Area Engineer identified on the map. If the work involves Emergency Watershed Program (EWP) or PL-566, the Area Engineer will work with state office technical specialists to carry out the work. The State Conservation Engineer will assign project responsibilities for EWP, PL-566, Rehabilitation, and other special projects.

If you have any questions, please feel free to contact Robert Anderson, State Conservation Engineer, at (615) 277-2559.
